## Smyrna bilingual academy

Smyrna Bilingual Academy was founded in 2008 by Tamisha Young and Noemi Rosa, driven by a passion for children and education. The academy offers a range of programs, including childcare services for ages 6 weeks to 12 years, as well as after-school care and engaging summer camps for school-age kids. Our curriculum seamlessly incorporates the Spanish language, providing daily opportunities for children to become fluent in their second language. We introduce new concepts regularly, reinforcing learning throughout the week and month with review sessions at the end of each period. Each month features a unique theme, while our fall and winter programs are designed to balance fun activities with educational value. This summer, we have an exciting lineup of activities that will make learning a delightful experience for your child. We're thrilled about our new curriculum and summer plans - we hope you'll find them just as captivating! We don't review or edit user content, but we do ask users to follow certain guidelines. If you notice an issue with a review, you can email us and we'll look into it. We won't remove reviews just because they're negative, though - providers are encouraged to respond to them if they feel necessary. Smyrna Bilingual Academy is locally owned by Tamisha Young, who started the school because she's passionate about kids and education. We offer childcare, preschool, pre-K, and after-school programs for children from 6 weeks to 12 years old. Our hours fit around parents' schedules at an affordable price.
